WELCOME FROM FIE INTERIM PRESIDENT

Abdelmoneim ElHusseiny
FIE Interim President

Dear Friends,

It is with great pleasure that I welcome you to Hong Kong, China for the Fencing Senior World Championships. A vibrant city brimming with charm and culture, Hong Kong is ready to welcome the best fencers in the world.

On behalf of our fencing family, I would like to thank everyone who has played a role in the organisation of these World Championships. This includes first and foremost our host the Fencing Association of Hong Kong, China (FAHKC) and its President, Mr Hoi Shan Ng, Aaron Mh, whose passion for our sport at all levels has translated into many recent success stories, from the grassroots to elite.

I also extend my appreciation to the Government of Hong Kong, China, for its valued support. We are delighted to be here and excited to deliver an unforgettable event for local and international audiences. To the volunteers: you have my sincere gratitude. Without your tireless efforts, events such as this simply could not happen.

Our goal is to make these Championships unforgettable for the 1,000+ participating athletes. Over the nine days of competition, our fencers can expect outstanding conditions on and off the field of play to allow them to perform at their peak. In turn, spectators will be treated to exceptional bouts across epee, foil and sabre – 12 individual and team events in total.

These Championships will also serve as a platform for the promotion of fencing in the region, and we are eager to welcome youngsters to the event that are already active in our sport or are discovering it for the first time. Both will be inspired by what they see and may even become stars of the future.

I wish all athletes the very best of luck. I hope each of you will be as proud of your hard work, efforts and determination as we will be.

See you all in Hong Kong.

WELCOME TO HONG KONG

Mr. NG Hoi Shan, Aaron MH

ABOUT HONG KONG

HONG KONG is a vibrant Special Administrative Region of China located on the country's southern coast, centered around the iconic Victoria Harbour with a population of approximately 7.5 million. Originally a collection of fishing villages and salt pans, Hong Kong became a British colony in 1841 and served as a vital strategic outpost until its 1997 handover to China. Because of its location at the crossroads of East and West, it developed into one of the world's most significant financial hubs and a premier gateway for global trade. To this day, the city's deep-water port ensures its position as an essential transit route for international maritime logistics. Hong Kong's history is reflected in its architecture, which is a dense mix of colonial-era heritage buildings, traditional Chinese temples, and more skyscrapers than any other city on earth. Historically, Hong Kong has been a melting pot of cultures and backgrounds, resulting in a unique blend of Cantonese traditions and Western influences. Notable tourist destinations include Victoria Peak, the Tian Tan Buddha, the bustling markets of Mong Kok, the Star Ferry, and the neon-lit streets of Central. The climate in Hong Kong is humid subtropical, mostly ranging from 26 to 34 °C in summer.

MASCOT

MAX FOR FOIL — DEFENSIVE TIMING WITH PRECISE OFFENSE

The hedgehog represents foil's signature balance: fast reactions, smart protection, and defensive "curl-up" moments that create openings. In foil, defense isn't passive—it's the key that allows clean, accurate touches.

OLLIE FOR EPEE — STEADY STRENGTH AND CONTROLLED DECISIONS

The oryx symbolise the calm power behind Epee. Its stand-your-ground presence reflects how Epee fencers manage distance, stay composed under pressure, and choose offense with intention. Defense supports the bout by holding the line until the right opportunity appears.

FINN FOR SABRE — SPEED, MOMENTUM, AND BOLD INITIATIVE

The swordfish captures sabre's fast, aggressive rhythm. Built for striking quickly, it represents attacking with momentum and taking the initiative in rapid exchanges. Defense still matters, but the mascot's energy highlights sabre as offense in motion—cutting forward when the opening is there.
