

EUROPEAN

JUNIOR & CADET CHAMPIONSHIP

NOVI SAD 2022

WELCOME TO NOVI SAD - SERBIA

Dear friends, colleagues, coaches and fencers,

It is with great pleasure that we, once again, host a Europe's best of the best junior and cadet fencers. We welcome You all to Novi Sad, second biggest city of Serbia and one of gastronomical and cultural capitals of this part of Europe.

It is now a tradition of our Federation to host big competitions, advance and develop organization, and provide unique experiences for our European fencing family. As always, we will do our best to make your competition smooth, safe and with best possible conditions for your best possible results.

Through these difficult times, where we are hostage of COVID infection, we strive to act professionally and responsibly, which in emotion filled sport like fencing is not always easy. The organizing of these Championships was one of the hardest that our federation has ever done, primarily because of desire to keep everyone safe without disrupting them in any way, or limiting their freedoms, which is a hard, if not impossible task. We hope that procedures and protocols we have set for your safety will not influence your good results and we ask you to follow them to the full extent!

I wish you good health, good performance, good results, sport luck and, of course, a good time in our beautiful country.

A handwritten signature in black ink, consisting of a series of loops and a long horizontal stroke at the end.

This competition will be using **Fencing Link™**.

Fencing link™ is three step software system that enables smooth running of the initial processes of the fencing competition: payment, accreditation and weapon control. It also enables easy distribution of important information to all competitors and officials.

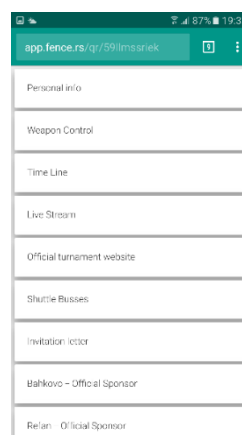

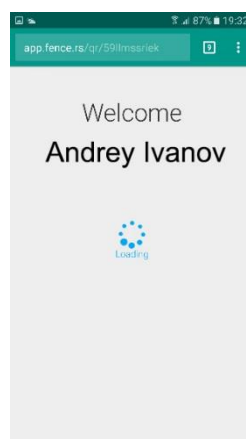

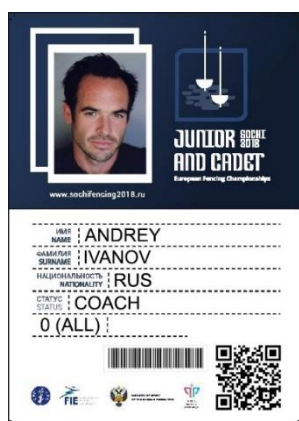

First step is payment. It can be done by single competitor or by one official for all the competitors from one country. All the other steps rely on this one. You will not be able to take the accreditation without paying and you will not be able to submit your material to weapon control.

Second step is accreditation. You can only get your competitor accreditation if your entry fee is payed! If you have your picture on FIE webpage you will have your accreditation already done, if not one will be made immediately on the spot. Whole process takes about two minutes.

Third step is weapon control. You can submit your equipment **ONLY with accreditation** and only in a bag that contains **ONLY material for the weapon control i.e.:**

This way we can ensure that your weapon control is fast and on time. You can follow the status of your bag on screen next to weapon control or on the mobile phone (see manual below) and on your confirmation slip you can see the expected time of delivery for your bag.

Fencing link™ also provides useful information at any moment for all the competitors and officials. Simply scan QR code on your Accreditation with your mobile phone and you will receive personal welcome with all the information regarding **competition schedule, transfer schedule, results, live streaming** and **information about your bag in weapon control**. The application is web based so you can use it anywhere where there is internet connection.

Introduction

The Serbian Fencing Federation and local organizing committee has developed this COVID-19 Protocol and Protection Plan which establishes the principles, protocols, and general guidelines to be followed by all participants before and throughout the Championships. Preamble

The novel coronavirus, COVID-19, has been declared a global pandemic by the World Health Organization. COVID-19 is extremely contagious and experts believe that it is primarily spread through person-to-person contact. The International Fencing Federation, the national fencing federation of the country in which the event is being held and the organizing committee of **Junior and cadet European championship 2022** (hereinafter: the “**Organizers**”) have introduced preventive measures aimed at reducing the spread of COVID-19. Nevertheless, the Organizers cannot guarantee that you will not be infected with COVID-19. Participation may also increase your risk of contracting COVID-19.
